PROFILE

Creative producer with a decade across Nike and adidas, taking brand work from brief to built — concept environments, retail, and campaigns. I turn shifting creative direction into what can actually be fabricated, installed, and shipped on a fixed date, while protecting craft under production pressure. Happiest in the build, working with fabricators and designers to close the gap between the render and the room.

EXPERIENCE

Creative Producer

Nike · Contract (ETW) · Beaverton

FEB 2026 – APR 2026

- Produced the SP27 Global-to-Geo Pivot Running & Training concept rooms at Nike WHQ — aspirational reveal environments, brief to install, on a fixed date.
- Owned the exploded-footwear graphics workstream end to end with UK design studio i love dust — 3D renders and STL files through graphic treatment, sampling, build, and install.
- Ran the production's contract and procurement backbone across 10+ external fabricators — SOWs, purchase orders, and vendor payments.
- Held delivery together through the final sprint, closing the gap between shifting creative direction — up to executive level — and what could be built in time.
